

Dear Parents/ Guardians,

Sony Creative Science Award (SCSA) is a yearly competition organised by Science Centre. We encourage your children/wards to take this opportunity to develop their early interest in science through creative toy making. They will need to include the "Light, Sound & Action!" feature as a functional component in their toy creation.

Please find attached the pdf slides by Science Centre, Entry Form and Self-reflection Rubrics.

The deadline for toy submission is 4 July 2025. Students will need to submit the toy and entry form to their Form teachers when school reopens in Term 3.

Students may seek clarification to improve their toys by informing their form teachers through ClassDojo. For any clarification, please approach your child/ward's form teacher.

We look forward to your child/ward's participation.

Thank you.

Yours sincerely,

*Ms Adelia, Ms Atiqah & Mrs See*  
*SCSA 2025 Teachers-in-charge*
